As a recent Information Technology graduate, I have a strong foundation in Web Development. I am eager to kickstart a career in the IT industry and be able to contribute innovative ideas, apply my skills and grow within a dynamic team where I can leverage my creativity, attention to detail, and dedication in creating solutions to those who need it.

INTERNSHIP EXPERIENCE

ESSU Information Communications Technology Center — Web Developer Intern

Feb 2023 - May 2023

- Collaborated with a team of interns to build a database design for the Online Graduate School Admission system.
- Developed an Online Application for Leave System for the main and branch campuses of Eastern Samar State University

ACADEMIC PROJECTS

Web Projects

Jun 2020 – May 2022

- Participated actively in the development of a website for a local school, aiding instructors and lecturers in tracking academic performance and distributing learning modules to students in response to COVID-19 restrictions.
- Contributed to the development of a website for a Local Government Unit that enables citizens to request and apply for formal government documents as well as the generation, modification and printing of these documents.

Arduino Project

Mar 2021 – Jun 2021

- Led a team in constructing an Arduino Project designed to aid and notify disaster response teams in locating missing individuals in the event of flash floods and typhoons.

Python Project

Aug 2022 – Dec 2022

- Contributed to the development of a Python-based desktop application that utilizes Face Recognition technology for daily class attendance tracking and monitoring.

Design Projects

Feb 2024 – Apr 2024

- Created a mock design project focused on revamping the user interface of a social networking app, expanded the understanding of mobile app interfaces and improvement of user journey.
- Created a tourism website design showcasing different tourist spots and introducing local activities for a local town.
